

Remarks/Arguments:

The applicant would like to thank the examiner for the telephonic interview on February 10, 2009, in which the claims and the prior art were discussed.

The above Amendments and these Remarks are in reply to the Final Office Action mailed December 24, 2008.

Claims 11-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Darugar (U.S. Publication No.: 2003/0018661) in view of Vedula (U.S. Patent No.: 6,823,495).

The independent claims have been amended to add the feature that “the conversion of first XML data to second XML data is done using XQuery; and wherein the conversion of the second XML data to JAVA data uses a query engine”. This combined feature is not shown or made obvious by the cited prior art.

In light of the above, it is respectfully submitted that all of the claims now pending in the subject patent application should be allowable, and a Notice of Allowance is requested. The Examiner is respectfully requested to telephone the undersigned if he can assist in any way in expediting issuance of a patent.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 06-1325 for any matter in connection with this response, including any fee for extension of time, which may be required.

Respectfully submitted,

Date: February 18, 2009
